

THE EVENING NEWS.

ING & PAINES' MILL.—This mill is building on American flat, about 30 or 40 rods below Reed's mill, and on the same stream. It was commenced a couple of months ago, and is now nearly completed. It will be ready to run in the course of three or four weeks. Its battery, which consists of eight stamps, is nearly completed, the rest which are to hold the pulp that runs from the mortars and which are to be situated next back of the battery are being put together. Wheeler's Patent Amalgamators are to be used for working the ores after they are crushed. Four of them have already been put up. Besides the four that have been put in place, there are two large separators, which take the pulp after it is worked in the pans and separate it. These two separators have not yet been put in position, but they are at hand ready for use when required. The engine and boiler are set. The former is about 15 or 20 horse power and amply sufficient to run the machinery of the mill. The proprietors, however, intend to put up 8 stamps more shortly after the mill gets running, and when they are added to the machinery already to be driven, together with that which will have to be put up to amalgamate with the new battery, it will probably be found necessary to erect a new engine.

REPAIRING.—The proprietors of Steele & Anderson's mill are giving it a thorough refitting; such a one as will make it as good as new, but which will also cost nearly as much as it would to rebuild it entire. Every part of the old works, except the battery is being taken to pieces, and that is being overhauled and repaired, and another, a new one of five stamps is being put up beside it. The crushing power of the mill when ready to run again, will therefore be double what they were before. All the old amalgamating machinery has been taken out, and the room which it occupied is being graded out and the bottom or floor made four or five feet lower than it was before. The amalgamating machinery which will be put in when the preparations being made to receive it are completed, will be new throughout. The pans used will be of Hephurn's pattern, and are already on hand, ready to be put in when they are wanted. The engine is also receiving its share of attention, and will either be replaced by a new one, or thoroughly refitted. It is a small one, and considerably worn, and will probably be replaced by a new and larger one.

JUSTICE COMPANY.—The work on this company's machinery is going ahead very rapidly. A large force of mechanics are employed and the frame work will be ready for erection in a very short time. The frame will be very heavy, so will the machinery. All the machinery is on the ground, ready to be put up when the frame is ready. The foundation of the engine is completed. It is constructed of brick and stone, and is of sufficient size, and weight, and of such workmanship, to be immovable and be capable of holding with the greatest firmness the engine, which is to be put on it, though it be worked to its greatest capacity. The bob pit is now being prepared to receive the foundation, and frame of the bob. In the meantime work on sinking the shaft is not suspended to remain idle. The miners have hard rock to sink it through but are nevertheless enabled to sink down 60 or 70 feet per week.

THE PRIMARIES IN VIRGINIA.—The election in Virginia, for delegates to the County Convention, which is to be held to-morrow, at the Court House, passed off rather quietly, so persons say who were there. Less than one-fourth of the vote of the city was polled. The vote of Gold Hill township exceeded that of Virginia. The following named delegates were elected: First Ward—Geo. Lamareaux, G. N. Collins, Hugh Kelly, Geo. Ogden and Pat. Nelson. Second Ward—Pat. Quigley, M. Medlin, Geo. Voshag, P. N. Ryan, J. Campbell, Geo. Birdall, L. P. Wardle, E. Denney. Third Ward—Dr. Tucker, J. P. Gallagher, Jacob Young, J. P. Dimmock, Mike Bradley, Fourth Ward—Jno. Cummings, F. O'Neill, J. E. Galligan. Flattery—Theo. Skillman, Jas. Wilcox, Wm. Woodhurst, John Reardon.

MIXING ON AMERICAN FLAT.—Mining in this part of our country has about come to a stand still. There are now only a very few of the scores of claims which were being worked three months ago now busy. Those that are being worked are not pushed on with much vigor, and in most of them only one or two shifts are run. The Kentucky is running its tunnel ahead, so is the Jim McCallan Company, the Knickerbocker and the Globe Companies are each running drifts, and the Jewett & Shepard and the Oregon Companies are both sinking their respective shafts. These we believe are the only claims down that way that are now working, and half of these claims employ each only one shift of workmen—one third of the number which were employed by them in prosperous times.

EXECUTIVE COMMITTEE.—The following gentlemen have been chosen as an Executive Committee to perform arrangements for the adoption of the State Constitution: R. E. Arick, I. C. Bateman, Thos. Barclay, S. A. Chapin, T. R. P. Dimmock, W. M. Gillespie, Jacob Smith, Peter Larkin and James Brennan, for Virginia. Lloyd, Prizell and J. B. Winters, for Gold Hill. H. C. Brown, for American City, and Theodore Skillman for Flattery.

PRIMARY ELECTION.—The following is the vote cast at the Primary Election in this town on Saturday last: Charles Beckwith 546; John Vandewater 551; Eugene Bittner 532; James Wright 541; John Bates 533; H. Thompson 538; George Rutherford 548; B. Quigg 538; John Lambert 499; C. Keiffer 540; E. McVicar 197; H. C. Brooke 103; W. H. H. Lee 95; George Plaster 97; C. L. Booth 97; T. D. Culver 91; John Nelson 121; J. M. Curdys 93; S. E. Hill 95. The whole number of votes polled, 653.

AVOIDING ARREST.—There is a rumor on the street that a white man having robbed a Chinaman in Virginia, the crowd raised a hue and cry, and the fellow started in pursuit of the robber, who, seeing no hope of escape, jumped down an open shaft. Whether anybody took the trouble to go down and see whether he was killed, we have not learned.

MILITARY.—Company "A," Captain Hassett, First Reg. N. T. Volunteers, has been ordered to Honey Lake, and vicinity, after Indians. Company "B," Captain Thurston, is ordered to Ruby Valley; and companies C, D, E, and F, Cavalry, are ordered to Salt Lake. Company C. Infantry, is to remain as post garrison and do Provost duty.

AMERICAN FLAT DELEGATES.—The delegates elected from American Flat on Saturday, are John McPeck, Bart Lee, and Geo. W. Cassidy. They are unpledged.

THE CATHOLIC FAIR.—This is the opening day of the Ladies' Fair in aid of the new Catholic Church. It is held at the Turn Verein Hall and will continue a week.

MASS MEETING OF THE MINERS' LEAGUE.—On Saturday evening last, the miners of Storey County turned out en masse, and completed the organization of a "Miners' League." Soon after dark, the miners from Virginia, to the number of many hundreds, entered this town with a fine band of music, headed by a huge transparency, inscribed, "The miners of Virginia, bring greeting to their brothers of Gold Hill," and all along the vast procession were interspersed fine American ensigns and other transparencies, bearing mottoes appropriate to the objects and sentiments of the League. The streets were soon blocked with an immense concourse of people. The balcony of the Vesey House was converted into a speaker's stand, and being decorated with the flags and lighted up by the transparencies made a magnificent display. The meeting was called to order by Mr. William Woodburn, President of the League, who very eloquently and forcibly announced the objects of the Association, and the character of the preliminary organization effected at the former meeting. The Secretary then read the Constitution and By Laws of the League as drafted by the Committee, which were unanimously adopted. [The Constitution and By Laws will be found, in full, elsewhere in our columns to-day.] The election of a Board of Trustees next took place, the names of whom we have not yet learned. The Secretary was authorized to procure an office on the Divide, which office is to be kept open every day from 2 P. M., to 9 P. M. (The office has been established at the Illinois House.) By unanimous resolution, the *Old Pike* and the *Gold Hill News* were named the medium for all advertisements of the Association. The meeting was afterwards addressed at considerable length by Mr. Johnson, Vice President of the League, and by Mr. Foster, after which the meeting adjourned and the Virginians took up their line of march for home. Everything was done quietly and in wonderful order and harmony for so large an assemblage. The advertisement of the Secretary will be found in its proper place in our columns.

THE CIRCUS IS COMING!—Mr. J. Al. exander, the Agent, says that the Great Ella Zoyra Troupe, brought by Mr. Wilson from New York and Havana at immense cost, have a reputation celebrated and world-wide, having appeared before all the crowned heads of Europe, and in the principal cities and towns of the United States and Cuba, and achieved the greatest possible success, and whose names stand pre-eminent in the profession, enabling the management to produce all the elegant, sensational, thrilling, comic and entertaining novelties of the day. This Circus will appear in Virginia for three nights, and next Sunday evening will exhibit in Gold Hill.

WESTON'S MILLS.—Mr. Weston's mills, situated some distance below Silver City, will be put into full operation this week. They have been stopped for several weeks, and entirely overhauled, a new engine and fine new amalgamating pans and stamps put in, with some other desirable improvements. They are now among the largest mills in the canon; and judging from the good name for honesty and fairness in business, we expect the proprietors will have all the work from our Gold Hill mines which they may want. The improvements just made have cost about \$10,000.

DISTINGUISHED VISITORS.—Gov. Low and family, and Ex-Gov. Stanford and family, were in Virginia yesterday. They were to leave for California, by the Donner Lake and Pacific Railroad route this morning. We also saw in Virginia yesterday, our jolly old friend Capt. Alex. R. Baldwin, of San Francisco, whose good-natured countenance is a "thing of joy" to all who know the Captain. He says he has come over to the seagland for his health.

BILLY MULLIGAN IN TROUBLE.—We saw Billy Mulligan in Virginia yesterday. He was in trouble. Although he had a stage ticket from Reese to San Francisco, the ungrateful stage driver failed to hunt up Billy's baggage, or even Billy himself, and left without him; all of which, except to give him much anxiety, as he heard that a Vigilance Committee had been organized down at Dayton.

J. H. HARRIS,  
Next Door to Gold Hill News Office.  
IMPORTANT TO THE HOLDERS  
OF U. S. TREASURY NOTES.  
STATE OF CALIFORNIA, COUNTY OF AMAR-  
DO, at F. REICHLING, being duly sworn, says,  
that the late firm of F. P. REICHLING, purchased  
of John Schade, of Sacramento City, one of F. P.  
McFarland's iron FIRE-PROOF SAFES; that said  
safe was in their store on the 25th day of  
August, 1882, when a large portion of the store was  
destroyed by fire—the safe was so intense that it  
meted the flames, and the safe was not damaged,  
the contents in said safe at the time being U. S.  
Treasury notes, and other valuable material,  
being and remaining entirely safe and unharmed by  
fire.  
Subscribed and sworn to before me this 11th day of  
October, A.D. 1882. H. COOK, Justice of the Peace.

TILTON & McFARLAND'S  
PATENT  
FIRE-PROOF SAFE.  
With Steel Vanits  
and Combination Locks.
